SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1 - Product identifier

Trade name/designation OVEN CLEANER RTU

Chemical name

Product-type Mixture

Product code 61360DO BVH / 61360CO BVH

## 1.2 - Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses - OVEN CLEANERS (spray, trigger) for

consumer use

Version: 1

Issue date: 04.02.2022

#### 1.3 - Details of the supplier of the safety data sheet

Biovate Hygienics Ltd Grafton House

Pury Hill Business Park

NN12 7LS Towcester United Kingdom

Telephone: 01328 851407

Website: www.biovatehygienics.com Email: info@biovatehygienics.com

#### 1.4-Emergency telephone number

United Kingdom: NHS Direct:111

## **SECTION 2: Hazards identification**

#### 2.1 - Classification of the substance or mixture

Classification according to Regulation (EC) No 1272/2008 [CLP]

| Met. Corr. 1  | Corrosive to metals - Category 1 |
|---------------|----------------------------------|
| Skin Irrit. 2 | Irritation, Category 2           |
| Eye Dam. 1    | Serious eye damage, Category 1   |

#### 2.2 - Label elements

Labelling according to Regulation (EC) No. 1272/2008 [CLP]

Contains: Alcohols, C12-14, ethoxylated, sulfates, sodium salts (CAS No.: 68891-38-3) | sodium hydroxide (CAS

No.: 1310-73-2)

Signal word : Danger

Hazard pictograms

#### Hazard statements

| H290 | May be corrosive to metals |
|------|----------------------------|
| H315 | Causes skin irritation     |
| H318 | Causes serious eye damage  |

Precautionary statements

07/02/2022 - English 1/10

Version: 1

Issue date: 04.02.2022

| P234           | Keep only in original packaging.                                                                                                 |
|----------------|----------------------------------------------------------------------------------------------------------------------------------|
| P264           | Wash hands thoroughly after handling.                                                                                            |
| P280           | Wear protective gloves/eye protection/face protection.                                                                           |
| P302+P352      | IF ON SKIN: Wash with plenty of water and soap.                                                                                  |
| P305+P351+P338 | IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. |
| P332+P313      | If skin irritation occurs: Get medical advice/attention.                                                                         |
| P362+P364      | Take off contaminated clothing and wash it before reuse.                                                                         |
| P390           | Absorb spillage to prevent material damage.                                                                                      |
| EUH-phrases    | : None                                                                                                                           |

#### 2.3 - Other hazards

| PBT-substance. | - This substance does not meet the PBT/vPvB criteria of |
|----------------|---------------------------------------------------------|
|                | REACH, Annex XIII.                                      |

# **SECTION 3: Composition / information on ingredients**

## 3.1 - Substances

Not applicable

#### 3.2 - Mixtures

| Chemical name                                               | No                                                                    | %      | Class(es)                                                             | Specific concentration limit |
|-------------------------------------------------------------|-----------------------------------------------------------------------|--------|-----------------------------------------------------------------------|------------------------------|

## **SECTION 4: First aid measures**

## 4.1 - Description of first aid measures

| Following inhalation   | <ul><li>Provide fresh air.</li><li>Seek medical advice immediately.</li></ul>                                                                                                      |
|------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Following skin contact | <ul><li>After contact with skin, wash immediately with plenty of water and soap.</li><li>In case of skin irritation, consult a physician.</li></ul>                                |
| After eye contact      | <ul> <li>In case of contact with eyes flush immediately with plenty of<br/>flowing water for 10 to 15 minutes holding eyelids apart and<br/>consult an ophthalmologist.</li> </ul> |
| After ingestion        | <ul><li>Rinse mouth thoroughly with water.</li><li>Do NOT induce vomiting.</li><li>Seek medical advice immediately.</li></ul>                                                      |

## 4.2 - Most important symptoms and effects, both acute and delayed

| Symptoms and effects - Following inhalation | - There may be shortness of breath and irritation of the throat |
|---------------------------------------------|-----------------------------------------------------------------|
|                                             | and chest.                                                      |

07/02/2022 - English 2/10

Version: 1

Issue date: 04.02.2022

| Symptoms and effects - Following skin contact | - Causes skin irritation.                                                                       |
|-----------------------------------------------|-------------------------------------------------------------------------------------------------|
| Symptoms and effects - After eye contact      | - Serious eye damage/eye irritation                                                             |
| Symptoms and effects - After ingestion        | - There may be soreness and redness of the mouth and throat. Nausea and stomach pain may occur. |

## 4.3 - Indication of any immediate medical attention and special treatment needed

- Treat symptomatically.
- Eye bathing equipment should be available on site.

## **SECTION 5: Firefighting measures**

#### 5.1 - Extinguishing media

Suitable extinguishing media

- ABC-powder
- Carbon dioxide (CO2)
- Foam
- Extinguishing powder

Unsuitable extinguishing media

- Full water jet

#### 5.2 - Special hazards arising from the substance or mixture

Special hazards arising from the substance or mixture

- Corrosive

- Hazardous combustion products

#### 5.3 - Advice for firefighters

- Co-ordinate fire-fighting measures to the fire surroundings.
- Wear a self-contained breathing apparatus and chemical protective clothing.

#### **SECTION 6: Accidental release measures**

#### 6.1 - Personal precautions, protective equipment and emergency procedures

| For non-emergency personnel | <ul> <li>Use personal protection equipment.</li> <li>Mark out the contaminated area with signs and prevent access to unauthorised access.</li> </ul> |
|-----------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------|
|                             | <ul><li>Provide adequate ventilation.</li><li>Turn leaking containers upside to prevent further escape of liquid</li></ul>                           |
| For emergency responders    | - No information available.                                                                                                                          |

#### 6.2 - Environmental precautions

- Contain the spillage using bunding.
- Do not allow to enter into surface water or drains.

#### 6.3 - Methods and material for containment and cleaning up

| Methods and material for containment | - Clear spills immediately.                                 |
|--------------------------------------|-------------------------------------------------------------|
|                                      | - Clean-up should be dealt with only by qualified personnel |
|                                      | familiar with the specific substance.                       |

07/02/2022 - English 3/10

| Methods and material for cleaning up | <ul> <li>Absorb with liquid-binding material (sand, diatomaceous earth, acid- or universal binding agents).</li> <li>Wash with plenty of water.</li> </ul> |
|--------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Inappropriate techniques             | - No information available.                                                                                                                                |

#### 6.4 - Reference to other sections

- Disposal: see section 13
- Personal protection equipment: see section 8

## **SECTION 7: Handling and storage**

## 7.1 - Precautions for safe handling

| Recommendation                          | <ul><li>Avoid: Eye contact</li><li>Avoid: Skin contact</li><li>Ensure adequate ventilation</li></ul>                                                                                                                                                                                                    |
|-----------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Advices on general occupational hygiene | <ul> <li>Avoid contact with skin, eyes and clothes.</li> <li>Wash contaminated clothing prior to re-use.</li> <li>Wash hands before breaks and after work.</li> <li>When using do not eat, drink, smoke, sniff.</li> <li>Work in well-ventilated zones or use proper respiratory protection.</li> </ul> |

## 7.2 - Conditions for safe storage, including any incompatibilities

- Keep container tightly closed in a cool, well-ventilated place.
- Only use containers specifically approved for the substance/product.

## 7.3 - Specific end use(s)

## **SECTION 8: Exposure controls/personal protection**

#### 8.1 - Control parameters

#### 8.2 - Exposure controls

| Appropriate engineering controls                                      | - Ensure there is sufficient ventilation |
|-----------------------------------------------------------------------|------------------------------------------|
| Individual protection measures, such as personal protective equipment | - Eye protection                         |

Version: 1

Issue date: 04.02.2022

- Protective Clothing
- Protective gloves

- Wash hands thoroughly after handling.

## **SECTION 9: Physical and chemical properties**

07/02/2022 - English 4/10

Version: 1

Issue date: 04.02.2022

## 9.1 - Information on basic physical and chemical properties

| Physical state                                   | Liquid                                      | Appearance        | Liquid            |  |
|--------------------------------------------------|---------------------------------------------|-------------------|-------------------|--|
| Colour                                           | whitish                                     | <u>Odour</u>      | characteristic    |  |
| Odour threshold                                  |                                             | No data available | No data available |  |
| рН                                               |                                             | 12.5              |                   |  |
| Melting point                                    |                                             | No data available |                   |  |
| Freezing point                                   |                                             | No data available |                   |  |
| Boiling point                                    |                                             | 102 °C            |                   |  |
| Flash point                                      |                                             | No data available |                   |  |
| Evaporation rate                                 |                                             | No data available |                   |  |
| flammability                                     |                                             | No data available |                   |  |
| Lower explosion limit                            |                                             | No data available |                   |  |
| Upper explosion limit                            |                                             | No data available |                   |  |
| Vapour pressure                                  |                                             | No data available |                   |  |
| Vapour density                                   |                                             | No data available |                   |  |
| Relative density                                 |                                             | 1.055             |                   |  |
| Density                                          |                                             | No data available |                   |  |
| Solubility (Water)                               |                                             | Soluble in water. |                   |  |
| Solubility (Ethanol)                             | Solubility (Ethanol) No data available      |                   |                   |  |
| Solubility (Acetone) No data available           |                                             |                   |                   |  |
| Solubility (Organic solvents)  No data available |                                             |                   |                   |  |
| Log KOC No data available                        |                                             |                   |                   |  |

| Decomposition temperature                        | Decomposition temperature No data available |                   |                   |  |
| Kinematic viscosity No data available            |                                             |                   |                   |  |
| Dynamic viscosity                                |                                             | Non-viscous       |                   |  |
| B (1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1         |                                             |                   |                   |  |

#### Particle characteristics

| Particle size | No data available |
|---------------|-------------------|

## 9.2 - Other information

| VOC content             | No data available |
|-------------------------|-------------------|
| Minimum ignition energy | No data available |
| Conductivity            | No data available |

## **SECTION 10: Stability and reactivity**

## 10.1 - Reactivity

- This material is considered to be non-reactive under normal use conditions.

#### 10.2 - Chemical stability

- The product is chemically stable under recommended conditions of storage, use and temperature.

## 10.3 - Possibility of hazardous reactions

- No hazardous reaction when handled and stored according to provisions.

#### 10.4 - Conditions to avoid

07/02/2022 - English 5/10

Version: 1

Issue date: 04.02.2022

- Avoid direct sunlight.
- Avoid excessive heat for prolonged periods of time.

#### 10.5 - Incompatible materials

- Strong Acids and Oxidising Agents

## 10.6 - Hazardous decomposition products

- Does not decompose when used for intended uses.
- Thermal decomposition can lead to the escape of irritating gases and vapours.

## **SECTION 11: Toxicological information**

## 11.1 - Information on hazard classes as defined in Regulation (EC) No 1272/2008

|                                   | , , , , , , , , , , , , , , , , , , , ,                                                  |                   |
|-----------------------------------|------------------------------------------------------------------------------------------|-------------------|
| Acute toxicity                    | - Not classified                                                                         |                   |
| Toxicity: Mixture                 |                                                                                          |                   |
|                                   | LD50 oral (rat)                                                                          | No data available |
|                                   | LD50 dermal (rat)                                                                        | No data available |
|                                   | LD50 dermal (rabbit)                                                                     | No data available |
|                                   | LC50 inhalation (rat)                                                                    | No data available |
|                                   | LC50 inhalation dusts and mists (rat)                                                    | No data available |
|                                   | LC50 inhalation vapours (rat)                                                            | No data available |
|                                   | - Based on available data, the classification criteria                                   | a are not met.    |
| Toxicity : Substances             |                                                                                          |                   |
|                                   | Alcohols, C12-14, ethoxylated, sulfates, sodium sa                                       | alts (68891-38-3) |
|                                   | LD50 oral (rat)                                                                          | 4100 mg/kg        |
|                                   | LD50 dermal (rat)                                                                        | > 2000 mg/kg      |
| Skin corrosion/irritation         | - Irritation, Category 2 - Causes skin irritation                                        |                   |
|                                   | - Irritating to skin.                                                                    |                   |
| Serious eye damage/eye irritation | - Serious eye damage, Category 1 - Causes seriou                                         | us eye damage     |
|                                   | <ul><li>Risk of serious damage to eyes.</li><li>Causes serious eye irritation.</li></ul> |                   |
| Respiratory or skin sensitisation | - Not classified                                                                         |                   |
| Germ cell mutagenicity            | - Not classified                                                                         |                   |
| Carcinogenicity                   | - Not classified                                                                         |                   |
| Reproductive toxicity             | - Not classified                                                                         |                   |
| STOT-single exposure              | - Not classified                                                                         |                   |
| STOT-repeated exposure            | - Not classified                                                                         |                   |
| Aspiration hazard                 | - Not classified                                                                         |                   |

07/02/2022 - English 6/10

#### 11.2 - Information on other hazards

## **SECTION 12: Ecological information**

#### 12.1 - Toxicity

Toxicity: Mixture

| EC50 48 hr crustacea              | No data available |
|-----------------------------------|-------------------|
| LC50 96 hr fish                   | No data available |
| ErC50 algae                       | No data available |
| ErC50 other aquatic plants        | No data available |
| NOEC chronic fish                 | No data available |
| NOEC chronic crustacea            | No data available |
| NOEC chronic algae                | No data available |
| NOEC chronic other aquatic plants | No data available |

#### **Toxicity: Substances**

| Alcohols, C12-14, ethoxylated, sulfates, sodium salts (68891-38-3) |           |  |
|--------------------------------------------------------------------|-----------|--|
| EC50 48 hr crustacea                                               | 7.4 mg/l  |  |
| LC50 96 hr fish > 7.1 mg/l                                         |           |  |
| ErC50 algae 27.7 mg/l                                              |           |  |
| sodium hydroxide (1310-73-2)                                       |           |  |
| EC50 48 hr crustacea                                               | 156 mg/l  |  |
| LC50 96 hr fish                                                    | 55.6 mg/l |  |

Version: 1

Issue date: 04.02.2022

#### 12.2 - Persistence and degradability

| Biochemical oxygen demand (BOD) | No data available |
|---------------------------------|-------------------|
| Chemical oxygen demand (COD)    | No data available |
| % of biodegradation in 28 days  | No data available |

<sup>-</sup> No information available.

#### 12.3 - Bioaccumulative potential

| Bioconcentration factor (BCF) | No data available |
|-------------------------------|-------------------|
| Log KOC                       | No data available |

<sup>-</sup> No indication of bioaccumulation potential.

### 12.4 - Mobility in soil

- No information available.

#### 12.5 - Results of PBT and vPvB assessment

- This substance does not meet the PBT/vPvB criteria of REACH, Annex XIII.

#### 12.6 - Endocrine disrupting properties

#### 12.7 - Other adverse effects

07/02/2022 - English 7/10

<sup>-</sup> The substance/mixture does not fullfill the criteria of the acute aquatic toxicity according to Regulation (EC) No 1272/2008 [CLP], Annex I.

Version: 1

Issue date: 04.02.2022

- No information available.

## **SECTION 13: Disposal considerations**

#### 13.1 - Waste treatment methods

Waste treatment methods - Dispose of waste according to applicable legislation.

Sewage disposal - No information available.

Special precautions for waste treatment - No information available.

Community or national or regional provisions - No information available.

#### **SECTION 14: Transport information**

#### 14.1 - UN number or ID number

UN number (ADR):UN1824UN number (RID):Not applicableUN number (ADN):Not applicableUN number (IMDG):Not applicableUN number (IATA):Not applicable

#### 14.2 - UN proper shipping name

UN proper shipping name : SODIUM HYDROXIDE SOLUTION

(ADR)

#### 14.3 - Transport hazard class(es)

ADR Transport hazard : 8

class(es)

ADR Classification code: : C5

**Pictograms** 

#### **Pictograms**

#### 14.4 - Packing group

Packing group : II

#### 14.5 - Environmental hazards

Environmental hazards : No Marine pollutant : No

#### 14.6 - Special precautions for user

07/02/2022 - English 8/10

**ADR** 

## **OVEN CLEANER RTU**

Version: 1

Issue date: 04.02.2022

ADR Classification code: : C5

ADR Special provisions :

ADR Limited quantity (LQ) : 1L
ADR Excepted quantities : E2

ADR Packing instructions : P001 IBC02

ADR Special packing provisions

ADR Mixed packing provisions **MP15** Instructions for portable tanks and bulk containers T7 Special provisions for portable tanks and bulk containers TP2 ADR tank code L4BN ADR tanks special provisions **TU42** Vehicle for tank carriage ΑT ADR Transport category 2 ADR Tunnel restriction code Ε

ADR Special provisions loading, unloading and handling

Special provisions - Packages
Special provisions - Bulk

Special provisions - Operation :

ADR Hazard identification number (Kemler No.) : 80

#### 14.7 - Maritime transport in bulk according to IMO instruments

#### **SECTION 15: Regulatory information**

# 15.1 - Safety, health and environmental regulations/legislation specific for the substance or mixture

Substances REACH None

candidates

Substances Annex XIV None
Substances Annex XVII None

VOC content No data available

## 15.2 - Chemical Safety Assessment

<u>Chemical safety assessment carried</u> - No information available.

out for the product

#### **SECTION 16: Other information**

#### SDS versions

| Version | Issue date | Author | Description of the amendments |
|---------|------------|--------|-------------------------------|
| 1       | 04/02/2022 |        |                               |

#### Texts of the regulatory sentences

| Acute Tox. 4 Oral                                                          | Acute toxicity (oral) - Category 4 |
|----------------------------------------------------------------------------|------------------------------------|
| Aquatic Chronic 3 Hazardous to the aquatic environment - Aquatic Chronic 3 |                                    |
| Carc. 2                                                                    | Carcinogenicity - Category 2       |
| Eye Dam. 1                                                                 | Serious eye damage, Category 1     |

07/02/2022 - English 9/10

Version : 1 Issue date : 04.02.2022

| Eye Irrit. 2  | Eye irritation - Category 2                                                                                                          |
|---------------|--------------------------------------------------------------------------------------------------------------------------------------|
| H290          | May be corrosive to metals                                                                                                           |
| H302          | Harmful if swallowed                                                                                                                 |
| H315          | Causes skin irritation                                                                                                               |
| H318          | Causes serious eye damage                                                                                                            |
| H319          | Causes serious eye irritation                                                                                                        |
| H351          | Suspected of causing cancer - state route of exposure if it is conclusively proven that no other routes of exposure cause the hazard |
| Met. Corr. 1  | Corrosive to metals - Category 1                                                                                                     |
| Skin Corr. 1A | Skin corrosion, Category 1A                                                                                                          |
| Skin Irrit. 2 | Irritation, Category 2                                                                                                               |
